Education

STANFORD GRADUATE SCHOOL OF BUSINESS
Master of Business Administration Candidate

Stanford, CA
2026-2028

NORTHWESTERN UNIVERSITY

Evanston, IL

B.S./M.S. in Computer Engineering, *Magna Cum Laude* / GPA: 3.89

2015-2019

- Awards: Departmental Honors (Senior of the Year); IEEE-Eta Kappa Nu; Dean's List (10/11 quarters)
- Study Abroad: ETH Zürich, Switzerland (Fall 2018): Network/Systems Security, Human-Computer Interaction
- Leadership: Residential College President; VP, Residential College Board; National Residence Hall Honorary

Experience

QERIS

Singapore

Intern

Aug 2026

- Drove Singapore defense stakeholder outreach for pre-seed AI drone startup; owned Go-to-Market strategy
- Converted RSAF and Singapore Army into active evaluators of autonomous terrain navigation technology; initiated DSTA pipeline, expanding total addressable stakeholder base to 3 agencies.

REPUBLIC OF SINGAPORE AIR FORCE

Singapore

Flight Commander (Department Head)

2024-Jul 2026

- Owned a 2-year Aster 30 air-defense system upgrade end-to-end, from technical design through acceptance testing, leading a 4-person engineering team and external vendors to a successful live operational trial.
- Defined and delivered full software/hardware requirements and led user and acceptance testing, ensuring the upgraded capability met operational standards on first trial.
- As Innovation Advisor for a 120-person unit, shipped secure internal tools and AI-driven automation that cut manual paperwork by 80% and reached 90%+ workflow adoption.
- Directed 24/7 air-defense operations across a 30+ person team, sustained 100% operational uptime.
- Led an organizational redesign that cut manpower requirements 17% while sustaining full operational output, using time trials, stakeholder feedback, and phased rollout to de-risk implementation.
- As Deputy Chair (Parade Safety) on National Day Parade Executive Committee (2025), owned risk management and incident response across 150+ volunteers for a 200,000-spectator event.

Product Manager and Plans Staff, Digital Service

2022-2023

- Served as product owner for a mission-critical digital capability, driving delivery from mid-build through design reviews and testing to on-time, on-budget deployment alongside defence scientists.
- Managed a \$50M+ portfolio of 8 capital and capability-development projects while restructuring a 50+ person department to align resourcing with mission priorities.
- Drove full user adoption of an end-to-end network capability within one month of rollout, including onboarding & transition support. Cut critical-incident response time 30%, saving multiple hours per response.

Fire Unit Commander (Team Lead)

2019-2021

- Independently ideated, defined, built and deployed a web-based equipment-tracking tool, prototyped in half a day, production in one week, eliminated ~700 man-hours/year; maintenance-free for 4+ years.
- Led a 12+ person team executing real-time air-defense operations, reducing response times 20%+.
- As Organising Secretary (Parade Operations) on the National Day Parade (2021), drove concept to stakeholder approval through execution for 800+ participant event, including crisis-response and COVID-19 protocols.

Additional

- Honors: Singapore Armed Forces Scholarship (2015); Public Sector Leaders Programme (2020)
- Technical Skills: Python, JavaScript, React, Node.js, C++, Java, HTML/CSS, VHDL/Verilog
- Program Skills: Agile/Scrum, cross-functional delivery, workflow automation, change management
